## PROMOTION WORK GOING ON

SECRETARY WOOD'S REPORT FOR THE CURRENT WEEK SHOWS ACTIVITY.

The following is Promotion Secretary Wood's report for this week: Chairman and Members of the Hawaii Promotion Committee.

Gentlemen:—It is pleasing to be able to report that, through the efforts of your Chairman and Mr. Willard Brown, 1909 Floral Parade matters are now well under way. Mr. T. H. Petrie having assumed the directorship of the event and being assured of the active assistance of Mr. Gartley and Mr. Dillingham, who served as Directors on former occasions, there can be no doubt as to the outcome though the time of preparation is somewhat short.

This year's event is being thoroughly advertised on the Mainland. Our attractive poster may be found in every hotel, excursion bureau, railway and steamship office along the Pacific Coast from Sitka to San Diego. We have also included in our Territory, all the larger cities of Western Canada, as well as our own prosperous Western and Northwestern states. The distribution of these posters was undertaken in good time and will, we believe, prove effective.

Besides trying to attract the stranger, a strong effort will be made to bring a thorough representation from the other Islands and I feel confident that Honolulu will have the largest and most representative gathering on February 22nd next that has ever been seen here.

The new edition of the Cross Roads of the Pacific Map is to hand. Among other additions are lines from Brisbane to Honolulu, Sydney to Auckland, Sydney to Wellington, Melbourne to Hobart, Hongkong to Manila, Hongkong to Sydney through Torres Strait, Hongkong to Batavia, Hongkong to Colombo, Adelaide toward Colombo. On all lines, correct distances are given, thus making the new edition of even greater value as a travel map than previous editions. The statistical matter at the top of the page is also brought down to date.

By the next steamers leaving for different points of the Compass, we will send out several score copies of these maps to fill orders now in hand. By the last "Alameda," we sent a large supply of our folders to the Coast for distribution, following previous heavy shipments. We are endeavoring as far as our supply of material will admit to get a wide distribution of our advertising matter at this time. Where, however, we issue an edition of 100,000 copies of our general folder, we could, if the funds were available, make good use of 500,000 copies. A special fund of Ten Thousand (\$10,000), Dollars for printed matter alone could be used to distinct advantage this year.

Another fund of similar amount could be utilized with advantage in maintaining a sales exhibit at Atlantic City, America's greatest tourist resort. In this instance, however, if properly managed, the investment would produce an attractive income. The principal item of expense would be the rent of a good room on the famous board walk which could be fitted up attractively. The plan would be, not merely to distribute folders and talk Hawaii, but to have on sale, canned pineapples, Kona coffee, jams, jellies, louti hats, hula mats, fans, photographs, postal cards, etc.

The services of Dr. Wilcox and his staff could be drawn upon to secure an attractive and thoroughly representative exhibit of our Agricultural possibilities.

Mr. Hitchcock's great painting of Kilauea could be shown under electric light and during the hot days of summer pineapple sherbert could be served to many thousands of thirsty travelers. Kona coffee could also be served as well as poi cocktails. Nothing would be given away but the advertising matter. Such an undertaking would prove a splendid advertisement as well as a paying investment.

Respectfully submitted,

H. P. WOOD,

Secretary.

term slides of Hawaii scenes and scenery for the Seattle Exposition. J. F. Morgan and Lloyd Childs are a committee on a Hawaiian fish exhibit. Miss Ida Pope suggests a historical exhibit. Mr. McIntyre will arrange a fernery. Kamehameha girls will probably sing at the Hawaii building. Mr. Kaudsen is procuring Niihau mats for wall decoration.

James Lane, who has been under confinement and restraint thirteen years owing to the loss of his mind from a blow in the head, had an operation performed by Dr. O'Day on Tuesday which has resulted in making him quiet and rational. It is hoped he will fully recover his reason. An operation some years ago was ineffective. Lane had his skull fractured at the police station with a blow from the butt of a rifle in the hands of a volunteer guard when he had made some resistance on being brought in as a rebel in the uprising of four years ago this month.

## MORGAN'S NEW IDEA

HEREAFTER HANDLES ONLY BIGGER BUSINESS—NEW CONCERN FOR MERCHANDISE.

James F. Morgan is making an important change in his business whereby he will cut out the general merchandise auction department and devote attention to the more absorbing operation of exclusively handling real estate auctions and large sales of other kinds.

Two men, whose names are not yet mentioned, have arranged to take an auction license and go into the auctioning of merchandise and are now

## THE ART

Owing to Chinese New Year the Art Theater will give an unusually good program from now until the end of the week.

On the Hilonian is a fine lot of new films direct from the east, that have never been on the islands before. Comprising these are a selection of the famous Pathe-freres films that are known the world over. They are full of wit, comedy and pathos. The characters are universally known as the best in the moving picture business.

Many films of beauty and colors are expected on the Hilonian. Many films of travel and adventure.

The Art will give a good program in commemoration of the Chinese feast Nene should miss the Art, when they put their best on the screen. This they have been doing the last few weeks and they gladly extend their thanks for the enormous crowds that attended all the performances.

The last week's show was a repetition of the others of late appearance—very good. They fully appreciate their audiences and they now state that their one thought will be to give the appreciative people of Honolulu one grand continuous line of pleasure in the illumination of the canvas with the best and most entertaining films the market can produce.

## WATER DEMAND

Referring to the water problem, Superintendent of Public Works Campbell remarked today:

"Honolulu is no longer a little city. It is growing fast. Here lately 450 U. S. Marines have been added to the population, who require 139 gallons a day, measured to them, per capita. And the condition of increasing demand is found all over the city. People bathe here every day while back east they bathe not oftener than once a week in winter."

looking for a location further up town than where Morgan has been in the habit of conducting general sales.

Steven will remain with Morgan in the high-class enterprise and Smithies will go with the new and separate concern which is to handle the general auction business elsewhere.

Morgan is refitting his office in Kahuamunu street for real estate and other big sales, while the large store below, used for general auctions, will be to let.

Governor Frear has received a request from the president of the International Leprosy Congress to be held at Bergen, Norway, asking him to appoint the two doctors Goodhue as delegates to the Congress. While in Washington the officials of several departments consulted him about a delegation from Hawaii.

The Christian Endeavor Society of Central Union church will hold a social Friday evening at 7:30 p. m. in the new parish house. There will be no formal program.

## LINCOLN MEMORIAL

This afternoon the special committee appointed by Governor Frear to arrange the Lincoln Memorial Day program arranged this schedule:

First: Mammoth parade, to include the National Guard of Hawaii, U. S. army and navy forces, Kamehameha cadets and other organizations to be announced later. Major Dunning, U. S. A., in charge.

Second—School procession and exercises—Supt. W. H. Babbitt in charge.

Third—Literary exercises at the little park off Union square, Hon. C. H. Dickey in charge.

Fourth—Grand literary program at the Hawaiian Opera House or some other large hall in the evening.

It is said that the move is again on in the Navy Department to acquire the channel wharf at the entrance to Honolulu bay for the use of transports. If this be taken it will be necessary, in future, to make other arrangements for a quarantine landing. The channel wharf cost well on toward \$100,000, but is now in a bad state of repair. Should it be taken over by the navy the wharf shed would be greatly enlarged and the general arrangement improved.

No marines will have duty on the transport Buffalo upon her departure from this city for the coast. The order removing marines from ships to duty on land went into effect on the first of January, and with the change in her color, the Buffalo will also dispose of her marine guard.
